

# How To Make A Cornucopia Out Of A Square Of Paper.

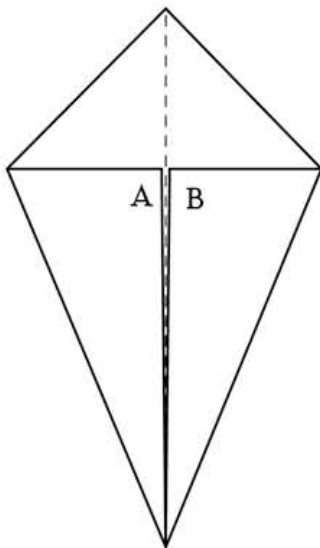

This toy is very simple to make! Use fancy stiff paper for an elegant treat basket or color or paint to make it pretty. You could also glue ribbon and lace on it for decoration.

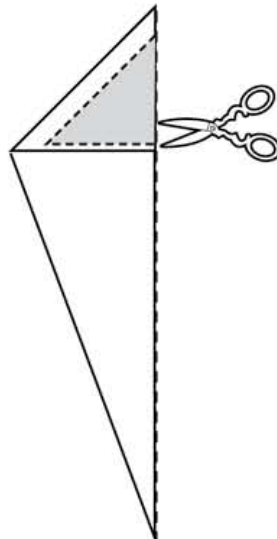

1. Fold a piece of paper diagonally from corner to corner

2. Open up the square.

3. Fold the left and right corners to the center line to make a kite shape.

4. Fold again and cut a triangle at the top to make the handle.

5. Glue Triangle A over triangle B. Hang your cornucopia from a doorknob and fill with flowers or treats.
